Suffolk County Council - Social Services

It is with great pride that we announce our successful bid for the Suffolk County Council Social Services contract for the 19th consecutive year.

We are thrilled to have been selected for ongoing support of the social services contract and are dedicated to providing the highest level of care for vulnerable children under the care of Suffolk County. Our team – Aimee, Danny, Aivars and Christopher – will work tirelessly to ensure that carers and children in care have access to the necessary I.C.T equipment. We are fully aware of the magnitude of this responsibility and appreciate the opportunity to maintain our partnership with Suffolk County. We look forward to serving the community for years to come.
